**Production (ground rule):** Number of plants must equal to environmental eco-efficiency performance.

**Environmental Eco-efficiency (ground rule):** Data to be included after data is collected for full 4 years or after 3 years of M&A COD

**GHG:** Since 2025 DJSI submission, Operational control approach is used for Scope 1, Scope 2, Scope 3 Category 1-14 emissions for own operation plants, while emission of Scope 3- Category 15 Joint Venture power plants is calculated based on equity approach.
