#### **Opinion Statement**

We conclude, that the One Report Review provides a fair view of program and performances during 2023. We believe that the 2023 economic, social and environment performance indicators are fairly represented and are supported by internal verification processes.

Our work was carried out by a team of sustainability report assurors in accordance with the AA1000 Assurance Standard v3. We planned and performed this part of our work to obtain the necessary information and explanations we considered to provide sufficient evidence that Electricity Generating Public Company Limited (EGCO)'s description of their approach to AA1000 Assurance Standard and their self-declaration of compliance with the GRI standards: Core option were fairly stated.

#### Methodology

Our work was designed to gather evidence on which to base our conclusion. We undertook the following activities:

- a top level review of issues raised by external parties that could be relevant to Electricity Generating Public Company Limited (EGCO) 's policies to provide a check on the appropriateness of statements made in the report.
- discussion with managers and staffs on Electricity Generating Public Company Limited (EGCO) 's approach to stakeholder engagement. However, we had no direct contact with external stakeholders.
- interviews with staffs involved in sustainability management, report preparation and provision of report information were carried out.
- Visit the following power plant to verify the data and information; Paju ES, BLCP, NTPC, KLU
- review of key organizational developments.
- review of supporting evidence for claims made in the reports.
- an assessment of the company's reporting and management processes concerning this
  reporting against the principles of Inclusivity, Materiality, Responsiveness and Impact as
  described in the AA1000 AccountAbility Principles Standard (2018).
